# Notes

## Divisibility Rules

Name: \_\_\_\_\_

Determine the divisibility rules for the following numbers. Write the rule in the space provided. Give an example for each number.

2	
3	
4	
5	
6	
9	
10	

Practice:

Determine what digits the following numbers are divisible by.

1. 432
2. 1060

# Man's Best Friend

The best friend a man has in this world may turn against him and become his enemy. His son or daughter whom he has reared with loving care may prove ungrateful. Those who are nearest and dearest to us -- those whom we trust with our happiness and good name -- may become traitors. The money that a man has he may lose. It flies away from him, perhaps when he needs it most. A man's reputation may be sacrificed in a moment of ill-considered action. The one absolute, unselfish friend that man can have in this selfish world -- the one that never proves ungrateful or treacherous -- is his dog.

A man's dog stands by him in prosperity and poverty, in health and sickness. He will sleep on the cold ground, where the wintry winds blow, and the snow drives fiercely, if only he can be near his master's side. He will kiss the hand that has no food to offer; he will lick the wounds and sores that come in encounter with the roughness of the world. He guards the sleep of his poor master as if he were a prince. When all other friends desert, he remains. When riches take wings and reputation falls to pieces, he is as constant in his love as the sun in its journey through the sky.

*--excerpted and adapted from George Graham Vest, 1870, "The Eulogy of the Dog"*

Use the RACE strategy to answer the following question, using the checklist as you write. **According to the author, why are dogs the best friend a man can have? use evidence to support your answer.**
